Cashlogy Safe

more secure cash management
for your business

Exquisite technology

Cashlogy Safe is the perfect cash management solution for businesses looking for **extra security**.

+ Security

Increase security for you and your employees. Store banknotes in a UL291 type safe. Reduce the frequency of cashing-up and optimise visits to your bank.

+ Time for yourself

Automatically balances the till and reduces the need to be always present at your business.

+ Peace of mind

Reduces shrinkage and fraud involving banknotes and coins.

Specifications
