## IH25 RFID Handheld Reader

## Overview

Honeywell's new IH25 RFID reader, combined with RFID tagging, offers an easier solution to keep track of high moving inventory with less effort. Retailers can count inventory in the store and warehouse 25 times faster than with barcodes, often in a matter of a few hours, enabling more frequent inventory updates and closer management of inventory levels. Lightweight and ergonomically designed, the Honeywell IH25, paired with a Honeywell high performance mobile computer, offers best in class UHF plus 1D/2D scanning, RFID range and speed.

- High tag read rate increases efficiency and reduces costs.
- Single charging station for Reader and Computer makes it easy and faster to charge.
- Ergonomic, balanced design provides extended use in different usage scenarios.
- Exceptional read range, increases productivity and decreases manual effort.
- Large, 4000 mAH battery enables uninterrupted use over long periods.
