SUNMI D2s PLUS COMBO Smart Desktop Terminal New

A one-stop choice for your retail checkout.

Powered by
SUNMI OS

A more powerful printer inside

A desktop terminal that prints at 250mm/s* definitely will be your great helper at peak hours. The 80mm wide receipts give you more room for your creative ideas that show your brand personality, no matter by long texts or images, or combined.

A cash drawer and a keyboard included

Customize your function keys on the 89-key POS keyboard to speed up your checkout. A cash drawer also was built in the COMBO for your cash payment businesses.
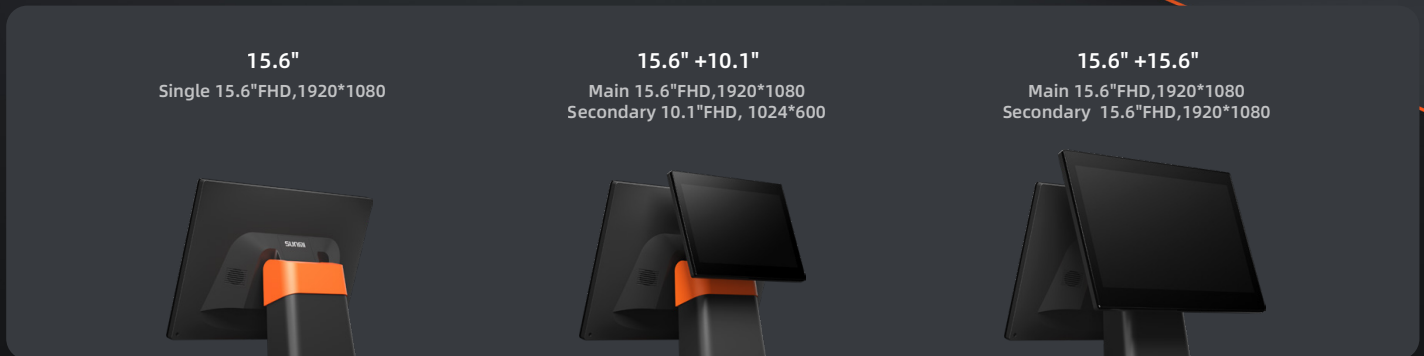

A printer that "feels" smoothes your business operations

The newly added sensors for paper jam, paper pickup, out of paper and overheated motor can effectively protect the printer and also delivers smooth receipt printing experience.

More configuration options

Three display options. Find what combination works best for you.
