SEÑOR

Vast Potential in Limited Space: iSPOS S106

The iSPOS S106 brings to you Senor's unparalleled quality and durability standard in a compact-sized all-in-one solution.

Its 10.4" high brightness, high resolution LED screen with multi touch support offers the user comfort and ease on a fully functional surface. Powered by Intel® Quad Core Celeron platform and fitted with SSD storage, the iSPOS S106 exhibits superior performance and reliability to manage high volume transactions effectively.

A wide array of integrated options for seamless and wireless communication ensures the system is well connected.

The iSPOS S106 can be implemented for a diverse range of applications in the retail, hospitality, banking and industrial sectors.

Compact Point of Service: iSPOS S106

Advanced features

- LED backlight, flat LCD design
- IP66 Certification for water & dust resistance
- Aluminium casing with exclusive nanotechnology coating
- Fanless and ventless operation
- Low power consumption
- Generates less heat
- Mounting options: Wall / VESA Mount

Sleek Wall Mount Panel PC: iSPOS S106 WS

The wall mount solution, iSPOS S106 WS is ideally suited for sites with restricted space that require multiple access points for self-service activities.

Ideal application for

- Guests Check-In
- Membership registration
- Information Operator
- Warehouse management
- Government facilities

Desktop Self Service Kiosk: iSPOS S106 WP

The iSPOS S106 WP is a compact sized, fully integrated desktop kiosk with an inbuilt thermal printer. It optimises an innovative modular construction design to assist in simplifying the maintenance process. The splash-proof printer cover aids to resolve the issue of paper jam and reduces damage caused by grease and dust accumulation.

Ideal application for:

- Self-service transactions
- Queue docket generation
- Registration point
- Ticket collection point
